Hi Ms. Dravis!
Hope you are doing well. I have a couple things for you:

1. Attached is document Pete Regan provided when you met at EPA on Tuesday, March 7. Pete would like to know if you have time for a brief (5-10 mins) phone call in the next couple days in regards to the memo.

2. General Pruitt is joining DEPA for a small reception next Monday, April 3 at 5:30pm, and we would love for you to come by if your schedule permits. We are confirming location today and I will share as soon as we do so!

Thank you so much for your time and I look forward to being in touch.
Respectfully,
Regan Robertson

Subject Steam Electric Effluent Limitations Guidelines and Standards Rule Call in (b) (6) passcode (b) (6)
Location 3233 WJCE
Show Time As Tentative
Briefing for Sarah Greenwalt.

Background: The Final Steam Electric Effluent Limitations Guideline (ELG) Rule was signed on September 30, 2015 and published in the Federal Register on November 3 of that year. The Rule updates the nationally-applicable technology-based regulations under the Clean

EPA-17-0432-C-000632

Water Act for the steam electric power generating industry, which were last revised 35 years ago, to limit the amount of toxic metals (e.g., mercury, arsenic, selenium, lead), as well as nutrients, discharged into waterways. The 2015 ELG Rule is based on technologies, which are already in use in the industry, are effective for treating or eliminating toxic pollutant and nutrient discharges to surface waters, and are affordable for the industry as a whole.

Brian,

Good to hear from you. We'd be happy to do a call like this. Admittedly schedules are pretty crazy but we can definitely find a time in the next few weeks. I am copying in Tate Bennett in our Congressional and Intergovernmental Affairs office and Brittany Bolen, Deputy Associate Administrator for Policy - we'd be happy to speak on a call.

Samantha

Samantha - Good morning. We were discussing yesterday the opportunity for our state energy policy advisors to have a telephone conference with you or someone from your shop to hear an overview

of the top line actions the EPA is taking (or any other matters you deem relevant). Would you be open to thinking about something over the next couple of weeks? Perhaps 30 minutes? Thanks - Brian

Subject Briefing re: OAR- Options Selection on Proposed 2018 Volume Standards for the Renewable Fuel Standard Program Meeting
Location Alm Room
Show Time As Busy

Title of the Meeting: Options Selection on Proposed 2018 Volume Standards for the Renewable Fuel Standard Program

Purpose: To present a set of options regarding the proposed rule that would establish the 2018 annual RFS volume standards.

Role of the Administrator: OAR staff will present to the Administrator options on rule development and seek input to inform next steps on the 2018 volume rule.

Background: Under the Clean Air Act, EPA must propose and finalize the applicable standards under the Renewable Fuel Standard (RFS) program every year by November 30 of the previous year. The standards must account for both Congressional intent and other factors that may influence the annual volumes. The goal is to propose the volume rule for 2018 by late May 2017.

Is the meeting urgent and if so, why?: Yes. Development of the standards are guided by law and as it is necessary to issue the proposed standards under a compressed timeframe and decisions are critical to allow sufficient time for interagency review to occur and signature of the proposal be completed by May 31. Submission of the package to OMB is scheduled for late April 2017.

Subject: RE: Following Up on EEI Board Meeting

Good morning Samantha. Recognizing that the overall situation at the agency remains fluid and a beehive of activity, I nonetheless trust that you are easing in and fully in control!

We've been communicating regularly with OG&E's Sean Trauschke, who in turn spoke recently with Ryan about scheduling a meeting between the Administrator and EEI's environmental leadership CEOs. We'll work directly with Ryan on the specifics of that session. In the interim, however, these same CEOs are requesting that EEI assemble a small group of their senior company staff to come in and meet with you and your colleagues. From our perspective, this session would focus on key substantive and process (e.g., permitting and siting) issues, as well as the general EPA institutional landscape. When you

get a moment, could you call me to discuss this item?

Thanks again for your past courtesies and I look forward to speaking with you soon. Best, Quin

Hope you are well.

Trying to set up a meeting with your team for next week on biodiesel issues related to the RFS.

Any chance we can catch up with your team for a few minutes on Thursday the 13th or Friday the 14th?

I will have at least three biodiesel CEO's in town at that time and would like to stop by for a short introduction.

Very much appreciated.

Thank you.

Ryan,

Larry Schafer here with Playmaker Strategies, we represent a handful of companies that produce over 300 million gallons of biodiesel.

Our clients, Gene Gebolys from World Energy and Scott Lewis from Biox will be in Washington DC on Thursday, April 13 and Friday, April 14.

Mr. Gebolys and Mr. Lewis run well-established biodiesel companies -- combined these two companies have plants in five states and Canada (Texas, Mississippi, Georgia, Pennsylvania, Massachusetts and Ontario)

We would like to bring them by for a short meeting to discuss the 2018 Renewable Fuels Standards (RFS) and specifically the Advanced Biofuels part of that program.

Might you have a few minutes to meet on either of those days?

Please let us know. Thank you.

We can be reached by email at Lschafer@playmakerstrategies.com <mailto:Lschafer@playmakerstrategies.com> or telephone at 202.997.8072.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Dear Ms. Dravis and Mr. Sugiyama:

At the suggestion of Al Collins of Occidental Petroleum (Oxy), who met with you last week and now sings your praises, I am writing to request a meeting with you at your earliest convenience to discuss a set of rules promulgated by EPA pursuant to Section 111 (b) and (d) of the Clean Air Act that impose revised performance standards for both new and existing municipal solid waste (MSW) landfills. The regulations were promulgated as part of President Obama's Climate Action Plan: Strategy to Reduce Methane Emissions.

Waste Management, along with Republic Services, the National Waste & Recycling Association and the Solid Waste Association of North America (associations representing both public and private organizations and professionals) identified a number of substantial issues of law and policy with the new rules, including overlap and conflict with existing rules governing the same landfill sources. We have asked EPA to stay, reconsider and revise the two climate-related rules. We petitioners have also challenged the new rules in the U.S. Court of Appeals for the D.C. Circuit.

The landfill rules share similarities with other regulations that EPA may reevaluate, including the Clean Power Plan and Oil & Gas Rules:

* The new rule for existing landfills relies on the same Section 111(d) authority for which the Clean Power Plan has been criticized; and

* The cost/benefit analyses underpinning the more stringent performance standards in the rules rely heavily on the "social cost of methane," which is derived from the "social cost of carbon."

Should the Agency decide to rethink those elements in other rules, we believe it would be advisable to reconsider the landfill rules as well. Although we petitioners are prepared to move forward with the judicial challenge, we believe a reconsideration of the rules could lead to a better outcome without the need for litigation. While rule revisions are our ultimate goal, an administrative stay of the rules under the Administrative Procedures Act is critical to avoid forcing the regulated community and the states to begin implementing these flawed rules. Many states are already engaged in developing their mandated state plans for implementation, which are due to the EPA by May 30, so our request for a meeting is time-critical.

I am attaching a recent letter we petitioners sent to EPA prior to Administrator Pruitt's confirmation. It includes our somewhat lengthy administrative petitions. I would be happy to follow-up next week by

phone to identify a convenient time on your doubtless busy schedules. Several participants will be coming from out of town, including a former colleague of Mr. Sugiyama, Mack McGuffey of Troutman Sanders, but we can be flexible in accommodating your schedules.

Thank you in advance, and I very much look forward to meeting you.

This is an AA-level briefing under the Action Development Process. Participating offices may delegate participation to a senior manager below the AA-level. Following the conclusion of the public comment periods, the workgroup should consider any public comments received and determine which, if any, present substantive issues that may impact the development of the final rules. The OCSPP AA is expected to provide direction about the development of the final rules (including rulemaking decisions) in consultation with other senior managers, but the direction and decisions may be announced after the meeting if circumstances warrant.

Hi Robin – thank you so much for the response on behalf of Samantha. I will take the 3:00 PM slot. Likely joining me will be two colleagues from Buchanan – Robert Shuster and Terry Heubert and Pam Witmer the V.P. for Government Relations at UGI Energy Services. Thanks and again for your assistance and patience, as I recently left the Senate after 20 years and am just adjusting to life downtown. Ed

Subject: Question and Meeting Request

Hi Samantha – I hope this note finds you well. By way of quick background, I most recently served as Senator Murkowski's Chief of Staff and for a number of years before that with Senator Domenici. A couple of questions: 1) does the EPA maintain involvement in the state permitting process for natural gas pipelines when EPA has delegated administration of the federal 404 program – a client is asking and if so would a meeting with the right staff/staffers be appropriate, if you are not the correct person? 2) could you please direct me to the appropriate person for a meeting on the North American Emission Control Area for Marine Vessels on behalf of a different client. Thank you for your time and indulgence. I look forward to hearing from you. Ed

Issues for Discussion

April 7, 2017

Methylene Chloride and N-Methylpyrrolidone; Regulation of Certain Uses Under TSCA Section 6(a)

On January 19, 2017 EPA published a Toxic Substance Control Act (TSCA) Section 6(a) proposed rule to regulate certain uses of methylene chloride and n-methylpyrrolidone (NMP). EPA proposed a determination of unreasonable risk for methylene chloride and NMP use in paint and coating removal. The proposal includes a prohibition on the manufacture (including import), processing, and distribution in commerce for consumer and commercial uses for both chemicals. The proposed rule also includes a prohibition for these commercial uses of both chemicals, including downstream notification and recordkeeping requirements. The agency's proposal provides a ten-year limited exemption for coating removal uses of both chemicals critical for

national security and an exemption for methylene chloride use in commercial furniture refinishing. The agency has also provided an alternate proposal to regulate NMP, which includes a requirement to establish a worker protection program for commercial use and a limit of 35 percent NMP for processors of paint and coating removal products.

EPA has prepared an initial regulatory flexibility analysis under the Regulatory Flexibility Act, examining the impacts of the proposed rule on small entities. EPA also convened a SBREFA panel to consider the impacts of the proposed changes on small entities in 2016; the panel report is in the docket. The comment deadline for the proposed rulemaking is April 19, 2017.

New Regulatory Reform Agenda

As indicated on the agenda, for the second hour, we plan on discussing the new regulatory reform agenda emanating from Executive Order 13771 (Reducing Regulations and Controlling Regulatory Costs, i.e., "1 in 2 out"), Executive Order 13777 (Enforcing the Regulatory Reform Agenda), and other White House directives. We are particularly interested in hearing from you about which regulations you think should be prioritized for review and reform.

The Office of Advocacy invites all small businesses and their representatives to present their perspectives as well. To reserve a spot on the agenda, please contact Tabby Waqar at twaqar@sba.gov <mailto:twaqar@sba.gov> .

Subject: A Chance to Meet Next Week?

Dear Brittany:

I expect this finds you very busy right now (we certainly had that impression when we were sitting with Mark Marin and his staff last week just after you had been in with the Administrator to see Chairman Smith). But we were hoping we might have a chance to find a short time on your calendar next week when we are in DC. You may recall that HEI is an independent research group funded jointly by industry and EPA to produce targeted, impartial, and quality science on air pollution and health (we met with you and Ryan when you were at EPW). We had been in talking with Mark about a the science we have underway that could be helpful as you re-visit key air quality decisions, and thought it would be useful to have a few minutes to discuss with you how our work could best be targeted to your priorities…

Is there a chance that you might have a time to meet next Thursday or Friday (April 20/21) when we are in DC? It would be great if we could make that happen…

Dan and Bob

Request:

I represent APS, the operator of the Four Corners Power Plan located on the Navajo Nation. We would like to discuss with you a federal implementation plan finalized in early January that affects the plant.

We are preparing materials on the FIP; in short, APS is concerned with certain monitoring requirements that restrict plant operations without providing environmental benefits. APS believes there are more effective and less burdensome monitoring options available. I would appreciate the chance to speak with you about the FIP, which has not yet been published in the federal register.

Request: I am writing today on behalf of Northwest Public Power Association (NWPPA)'s Executive Director Anita Decker. Anita will be in Washington D, C. from Washington state on April 25-26, 2017. She would like to meet with Administrator Pruitt, you or other political appointees who are assigned to work on electric utility issues of interest to NWPPA.

EPA-17-0432-C-000743

NWPPA is an electric utility association in the Pacific Northwest representing 151 hydroelectric, nuclear power and natural gas electric utilities (municipal and electric coops) affected by EPA regulations including some that are going to be revisited under recent Executive Orders. Their membership involves many electric utilities (municipal and coop) that would be affected by EPA regulations across several states in the Northwest—not just those in Washington state. NWPPA's member utilities serve 20 million customers making it one of the largest electric utility organizations in the western part of the United States.

They are interested in the following:

* Waters of the US – next steps (realizing it has been addressed in the Executive Order)
* Clean Power Plan review and replacement (they are aware of the Executive Order action last week)
* General EPA priorities related to the electric power sector

A link to the NWPPA organization is https://www.nwppa.org/about-nwppa/ <https://www.nwppa.org/about-nwppa/> and board information at https://www.nwppa.org/about-nwppa/nwppa-board-of-trustees/ <https://www.nwppa.org/about-nwppa/nwppa-board-of-trustees/>

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Request: We represent a golf coalition you may be familiar with called We Are Golf (WAG). The coalition was formed in 2008 with the express purpose of giving decision-makers in Washington a more accurate picture of the golf industry and the game of golf in general. Negative assumptions about who plays, where they play etc. and a lack of recognition about how many jobs golf provides and the nature of those jobs had lead to punitive singling out of golf in policymaking and legislation. Apart from clearing the air on those fronts, WAG has also invested a lot of the coalition's efforts in advocating around environmental issues. It's that set of issues we of course would love to talk about with Administrator Pruitt and your appropriate EPA colleagues.

The golf industry has made huge strides in recent years when it comes to sustainable management of the two million acres of open space golf course land and water we have in this country. We have a great story to tell about huge steps we have taken forward to improve water quality and use, energy savings, pollution reduction and creation and protection of high quality fish and wildlife habitat. We want to stay on this trajectory and firmly believe we can continue to improve golf property stewardship to provide broad public benefits. In recent years, federal policies have unfortunately represented drags on our ability to do this. The golf industry is very excited about starting some fresh conversations with this administration and we'd like to start at EPA with your boss. WAG is eager to work with an administration that will have an interest in pausing to think through how any new policies or enforcement of existing policies will impact the golf industry's ability to increase the environmental value of golf.

Subject: Regulatory Reform and Other Items

Brittany,

I read that one of your assignments is the regulatory reform task force. Consequently, I wanted to reach out on some issues of concern. I've attached an email that I sent to Ryan Jackson that raises several issues that we would like to discuss. (Separately, we are trying to arrange a meeting for Barry Russell, IPAA's President and CEO with Administrator Pruitt through Sydney Hupp.)

Obviously, events are moving quickly. I know that the Administration filed an abeyance petition on the Subpart OOOOa litigation today. There is an issue there that is related that I'd like to call to your attention. The Subpart OOOOa fugitive emissions program – with its costly Leak Detection and Repair (LDAR) requirements – is scheduled to take effect on June 3. It would be helpful if this requirement, at least, could be stayed while the Subpart OOOO and OOOOa requirements are being reconsidered since a different approach might be developed. I know there are other provisions that are already in effect that raise similar issues.

I also spoke with Dave Rostker from the SBA Advocacy office regarding LDAR in a small business context where the issues arises in both the Subpart OOOOa and VOC Control Techniques Guidelines context. He suggested reaching out to EPA as well.

Hopefully, we can discuss these issues soon given your schedule.

Thanks for your consideration,

Lee Fuller

Subject: IPAA Issues at EPA; Possible Meeting

Ryan,

I'm reaching out to you but would be happy if you point me to a preferred contact person.

After the recent Energy Executive Order, IPAA would like to discuss a number of pending issues with EPA.

Barry Russell, IPAA's President and CEO, would like to meet with Administrator Pruitt to introduce himself and IPAA. Barry worked for EPA in the 1970s before coming to IPAA.

The issues that we'd like to discuss relate to several matters.

First, EPA's actions in response to the Energy EO with regard to the methane NSPS (Subparts OOOO and OOOOa) are most important to IPAA. While currently engaged in the litigation opposing the regulations, the pathway to reconsideration and possible revision is critical. IPAA wants to be involved as soon as possible and wants to offer its cooperation.

Second, IPAA strongly supports efforts to expand and enhance delegation of regulatory authority to states. We are looking for options to be helpful in identifying pathways, working with our state cooperating associations to encourage state actions and working with Congress if there are barriers that need to be addressed.

Additionally, following are several other items – mostly directly affecting independent oil and natural gas producers – that we would like to identify as issues that we would hope EPA could address:

1. Control Techniques Guidelines (CTG) – As a part of the Energy Executive Order, EPA is directed to reconsider the oil and natural gas methane New Source Performance Standard (NSPS) – Subparts OOOO and OOOOa. When the Obama Administration proposed the NSPS, it also proposed a CTG for existing sources of Volatile Organic Compounds (VOC) in Ozone nonattainment areas. The CTG was finalized in October 2016. It should be suspended or withdrawn until the NSPS issues are resolved and determinations can be made on the appropriateness of the technology being applied to existing sources. Otherwise, the CTG will be applicable in future State Implementation Plans (SIP).

2. RCRA Subtitle D Consent Decree – EPA agreed to a Consent Decree to settle litigation regarding mandatory duties under RCRA Subtitle D related to making determinations regarding the appropriateness of state oil and natural gas production wastes regulations. EPA has until March 2019 to respond but it should act quickly for two reasons. First, EPA's mandate to act does not require an extensive burden and the longer it takes to act, the more state programs appear to be viewed as inadequate. Second, the mandatory duties require action every three years. Action in 2017 would allow EPA to reconfirm its position in 2020 and establish a clear practice for the future.

3. Unconventional Oil and Gas (UOG) Extraction Effluent Limitations Guidelines (ELG) – EPA finalized UOG Extraction ELG for discharges to Publicly Owned Treatment Works (POTW) in June 2016. These ELG should be based on a technology standard – Best Available Technology Economically Achievable (BATEA). EPA concluded that all discharges to POTW should be prohibited based on the availability of underground injection wells and of recycling options. Neither of these are BATEA. EPA should not be making zero discharge determinations based on its perception of other options. It should determine BATEA requirements. If the BATEA requirements are too expensive, it should be the dischargers' choice to use alternative approaches.

4. Clean Air Act Enforcement Tactics – Over the past several years, EPA's Enforcement tactics have been excessively aggressive. For example, in North Dakota where the state did not have delegation of the NSPS program for oil and natural gas production, EPA Enforcement initiated direct actions against producers with regard to its interpretation of Subpart OOOO requirements for storage vessels. This interpretation differed from those EPA technical staff had initially indicated. Using its enforcement power, EPA filed proposed penalties

EPA-17-0432-C-000762

against a privately held producer that exceeded the value of its assets. The purpose was clear and predictable. EPA wanted to use its enforcement power to compel a limited asset company to enter into a consent agreement that would require actions that met Enforcement's interpretation of the regulation and to commit to additional actions that were beyond EPA Clean Air Act authority to require. Not only did EPA use a gap in state delegation to step over North Dakota in its zeal, but these types of enforcement tactics reflect poorly on EPA and the federal government and should be ended.

5. Ozone National Ambient Air Quality Standards (NAAQS) Revisions – The 2014 revision to the Ozone NAAQS should be reconsidered. Implementation of the 2008 revision to the Ozone NAAQS had yet to be implemented and evaluated when the 2014 revision was finalized. NAAQS attainment should be the target, not promulgating new, unachievable revisions. EPA's own data showed that the same areas it projected to fail to attain the 2008 NAAQS would fail to meet the 2014 revision. In those areas, the regulatory requirements would not change but the 2014 revision would bring new areas into nonattainment regulation. Even though EPA predicted those new areas would reach the 2014 NAAQS without additional local controls, those areas would be subject to new source permitting requirements that hamper their economic development. Where there is no compelling health benefit from a NAAQS revision – like the 2014 action – EPA should devote resources to attainment of the prior standard.

Thanks for considering this request. Please let me know how to proceed from here.

Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Meeting proposal: ENERGY STAR is moving a specification on clothes washers, which we oppose. It is critical that I ensure you are aware of what is going on and hopefully stop this action until we can talk in more detail. While this is an urgent matter, it is also very important to discuss the ENERGY STAR program broadly. At a high level, we support its moving back to DOE for our products and have discussed this with the DOE beachhead team. We have CEOs and other senior executives from the entire industry meeting in DC for our Annual Meeting from April 29-May 2. It would be very helpful if we could discuss our issues with you before that. Any time from Tuesday, April 25, to Friday, April 28 would be ideal.

Discussion Topics:

SNAP Rule Allowing Isobutane (EPA-HQ-OAR-2009-0286) & Rule 21 (bans HFCs for refrigerators in 2021)
Microfibers (Trash-Free Waters)

Material Management/Landfill Diversion/Food Waste Disposers
Safe Drink Water
TSCA Reform Support
Counterfeit Water Filters

OGC Colleagues: The Quarterly All Hands meeting will not be in room 1153 WJC East due to the unavailability of video-teleconference or data connections there due to the renovations of the room. However, we will stick to the May 4 date to give our invited guests time to prepare and certainty on all of our calendars.

We look forward to introducing our new Deputy General Counsels, as well as, other members of the Administrator's Office team. Also, remember if you have any questions you would like addressed by the OGC management team, but are uncomfortable raising them publicly, you should feel free to place them in the OGC suggestion box located in the 7th Floor large pantry. Thank you.

Colleagues:

On May 4, Professor James Stock will be visiting NCEE and presenting his research on "Pass-through of RIN prices to Blended Fuels under the RFS." The seminar will begin at 11:00 AM and last 90 minutes. Given the relevancy of this research we are inviting our OAR colleagues as well but decided to limit attendance beyond this to insure plenty of time for questions and dialogue. An abstract is pasted below. There will be an audio call-in number as well. The seminar will be in room 4128 WJC West.

"Pass-through of RIN prices to Blended Fuels under the RFS"

by

James Stock

(Department of Economics, Harvard University)

Abstract

Under the Renewable Fuel Standard, in theory RIN prices incentivize the production and consumption of renewable fuels. In the case of ethanol, with blending requirements that require blending fuels in excess of the amount of ethanol that can be contained in E10, ethanol RINs should serve to provide price discounts to the consumer for the use of additional ethanol through higher blends. This talk covers work in three papers that trace the pass-through of RIN prices along the fuel supply chain: from the refinery or importer to bulk wholesale markets (exchange prices), from bulk wholesale to the rack (the distribution terminal), and from the rack to the pump. We find complete pass-through in bulk wholesale markets, but heterogeneous and frequently partial pass-through at the rack and in the retail market for higher blends.

Subject Meeting with NAHB re: Renovation, Repair and Painting Program and Stormwater Issues
Location DCRoomARN3500/OPEI
Show Time As Busy

Hi,

Would you set this up from Samantha's calendar Please? Thank you.

Directions: Please use the William Jefferson Clinton North Entrance

located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

4 Attendees: Tamra Spielvogel, Amy Chai, Eva Birk and Tom Ward

Request: A follow-up conversation to discuss the RRP program. I'm emailing in follow-up to your conversation with Michael Mittelholzer at the NAHB meeting with Administrator Pruitt last week. I know several issues were discussed for additional follow-up during the meeting with the Administrator including the Renovation, Repair and Painting (RRP) Program and stormwater issues which my colleague Eva will be following up with you on in a subsequent message.

Attached is the material you and Michael discussed to provide additional detail regarding NAHB's concerns regarding implementation and evaluation of the RRP program. Specifically I have provided copies of NAHB's comments related to the Section 610 review as well as those NAHB submitted during both public comment periods EPA opened during the review of issues related to the lack of an approved lead test kit. Also, for your information I am including copies of two petitions NAHB has filed with EPA on the RRP program. The most recent was in regards to the changes made to the refresher training course requirements which was denied by the agency in December 2016. The EPA response is also enclosed. I have enclosed the 2010 petition because while the other documents discuss the issues we have with the economic analysis of the rule, it was most comprehensively addressed in this petition on the test kit.

Finally, I was also told you are interested in the report where EPA's cost benefit estimates were called into question. The report was issued by the EPA Office of the Inspector General. The following link will take you to the OIG page for the report where you can access their findings, the report, as well as the responses exchanged between OIG and EPA on the report.

I would note that one of the commitments made by the EPA to the OIG was to collect better data but they made the commitment to do so in the context of a separate rulemaking (the development of an RRP rule for Public & Commercial Buildings) and that survey is currently underway. NAHB individually and as part of an industry coalition has called into question the efficacy of this effort. While the data may be useful to the residential program collecting it in the context of the Public & Commercial Buildings rule has never seemed appropriate or truly illustrative given a range of other differences between the two rules. Furthermore, the data is being collected prior to establishing a hazard for Public & Commercial Buildings.

Sending this out just so it shows up on folks' calendars. I'd advise getting there about 10 min early to clear security.

Once there's a call-in number, I'll add that, too.

Please let me know if you have any questions.—Ben

All,

We're having the briefing tomorrow at 4pm in the New Executive Office Building in 10258. Conference room 10258 is just outside the elevator bay on the 10th floor. There is a meeting scheduled in the conference room just prior to the 4pm meeting, but there is small reception area outside of the conference room where you can wait. Here is the link to the appointment where all attendees should submit their security clearance information. Please do so as soon as possible as we'll need to submit this tomorrow morning so attendees can be cleared into the building.
[redacted] form? [redacted] We may have a call-in number as I imagine that some of the agencies who will be reviewing may not be able to send people over on such short notice. I'll send the call-in info in a later email.

Request:
I wanted to pass along a few letters that you may or may not have already seen. I've attached letters from the Colorado Oil and Gas Association, the Colorado Association of Commerce and Industry and the Colorado Petroleum Association. I understand you may have also received similar letters from North Dakota industry associations. They address an issue that we've been talking about for quite a while, the need to reevaluate the previous Administration's campaign against oil and gas operators and return primary control to the States, as intended under the Clean Air Act. As we've discussed many times, we are simply advocating for a return to regular order and the type of "cooperative federalism" that the Administrator so ably champions at every opportunity.

Subject Discussion with Ray Shepherd re: Permitting in Indiana
Location 3513E
Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Request: Discuss a permit issue we are having in Indiana. It is a perfect example of how a rogue bureaucrat (Army Corps of Engineers) can veto a project that is environmentally conscious and would employee hundred and provide tens of millions of dollars in local revenue. EPA is part of the process (along with DOI and ACOE).

Location DCRoomARN3500/OPEI
Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Request:
Swift Fuels' corporate leadership, Chairman Rob Broin, and CEO Chris

D'Acosta, will be in Washington D.C. on June 6, and 7, and the morning of June 8. Rob Broin is Founder and Chief Technology Officer of Broin Companies (which is now a part of POET, LLC). Both bios are attached.

Swift Fuels is a cutting edge global leader in the development of high-performance unleaded aviation fuels. Rob and Chris would like to brief you on the status of the Piston Aviation Fuel Initiative (PAFI), of which Swift Fuels is a finalist, as well as the future of unleaded avgas at the EPA and FAA.

BACKGROUND
Swift Fuels, headquartered in West Lafayette, IN, is a global leader in the development of high-performance unleaded aviation fuels. In response to the general aviation industry's need to eliminate lead emissions, Swift has developed a 102 Motor octane unleaded aviation gasoline, a replacement for the leaded aviation gasoline (100LL) used in piston-powered aircraft today.

LEADED AVGAS
* Prior to environmental pressure thirty years ago, the lead concentration in general aviation fuel was double what it is today.
* 100LL is being scrutinized as it is currently the source of nearly 50% of annual domestic lead emissions.
* On October 12th, 2006, a petition was filed with the EPA asking the EPA to determine whether lead emissions from general aviation pose a significant risk to human health.
* If sufficient information was found, the EPA was asked to make a formal Finding of Endangerment to public health and welfare. This would result in the regulation of lead emissions caused by the combustion of 100LL.

The Piston Aviation Fuels Initiative (PAFI)
* In response to the petition, the FAA, working in collaboration with the EPA, established PAFI, a government and industry partnership, to facilitate the development and deployment of a new unleaded aviation fuel that can be readily available across the GA fleet.
* In September 2014, the FAA accepted four fuel formulations into the PAFI Phase 1 test program.
* In 2014, the FAA received 17 fuel formulations from six companies, four of which ultimately were accepted into the PAFI Phase 1 test program, including Swift Fuels.
* In March 2016, the FAA announced fuel formulations from Swift Fuels and one additional company were selected for Phase 2 engine and aircraft testing. The testing will begin this summer and conclude in 2018.
ISSUE
* Upon completion of the Phase 2, Swift Fuels is seeking FAA fleet-wide certification for its high-octane fuel, under the coordination of the FAA's PAFI program
* Per 49 U.S. Code § 44714, an EPA endangerment finding under the Clean Air Act gives the FAA the authority to prescribe and enforce standards for aircraft fuel.

49 U.S. Code § 44714
The Administrator of the Federal Aviation Administration shall prescribe—
(1) standards for the composition or chemical or physical properties of

EPA-17-0432-C-000956

an aircraft fuel or fuel additive to control or eliminate aircraft emissions the Administrator of the Environmental Protection Agency decides under section 231 of the Clean Air Act (42 U.S.C. 7571 <https://www.law.cornell.edu/uscode/text/42/7571>) endanger the public health or welfare; and
(2) regulations providing for carrying out and enforcing those standards.

Request: We understand that it would be most convenient to meet at the EPA HQ and are prepared to bring a group of our Board Members for a meeting. As confirmed by other industry colleagues, we believe that the most appropriate person to meet with would be Brittany, as she is an executive level political appointee that represents the policies of the new administration. The nature of the discussion is not meant to be technical, but rather focus on policies moving forward under the new EPA administrator. The discussion may also address EPA-related regulatory challenges:
1. The U.S. color pigment manufacturing industry, its downstream customers and its domestic economic impacts
2. Principal EPA-related regulatory challenges:
a. TSCA risk evaluations of Work Plan pigments, starting with Violet 29
b. Proper role of EPA regions in setting state water quality criteria — Region 10 override of WA DoE

Subject: NCEE Environmental Economics Seminar

EPA's National Center for Environmental Economics (NCEE) will host our next Environmental Economics seminar on Thursday, June 8, 2017 at 2:00 PM in Room 4128 William Jefferson Clinton West (formerly EPA West). The seminar will be 90 minutes in length. Detailed information is provided below. Our office is located in William Jefferson Clinton West (1301 Constitution Ave., NW, corner of 14th St. and Constitution Ave.). If you do not have an EPA ID and wish to attend a seminar please contact Carl Pasurka to obtain access to the building. Questions? Contact Carl Pasurka (202-566-2275). If you have questions the day of the seminar, contact Carl Pasurka at 202-566-2275.

NOTE to non-EPA attendees: EPA Security requires ALL non-EPA (federal and non-federal) visitors have a contact name and phone number in order to enter EPA West. As a result, contact me if you plan to attend a seminar. I recommend non-EPA attendees bring their cell phones and my phone number in case problems arise the day of the seminar.

"The Impacts of Climate Change on US Agriculture:
Accounting for the Option Value of Farmland in the Ricardian Approach"

by

Ariel Ortiz-Bobea
(Charles H. Dyson School of Applied Economics and Management, Cornell University)

Abstract

The Ricardian (hedonic) analysis of climate change impacts on agriculture typically relies on a cross-sectional regression of farmland values on climate variables. While the price of farmland may reflect agricultural rents, it also generally embodies the option value of alternative non-farm uses of the land. In this paper, I illustrate how expected land use change can operate as an influential omitted variable in benchmark Ricardian models based on farmland values. In the US context, I find that benchmark Ricardian estimates are increasingly biased downward over time as housing market pressures spill over into farmland markets. The result cannot be reasonably explained by other factors including measurement error or structural changes in agriculture. To circumvent biases associated with development pressure, I propose a slightly revised model based on alternative dependent variables that reflect agricultural rents of the land but not their option value. New Ricardian estimates based on the rental price of non-irrigated cropland point to small and statistically insignificant impacts of climate change on US crop agriculture. Because non-irrigated crop agriculture is arguably the most climate-sensitive agricultural activity, these findings point to a neutral but cautionary outlook for US agriculture under climate change.

The purpose of our request is to have the opportunity for Larry to meet Administrator Pruitt, provide him with an overview of Phillips 66 and our Corporate Strategy, discuss our commitment to the environment, and to offer P66 resources as might be helpful to the Agency. Larry is currently the Chair of AFPM, and sits on the API Downstream Executive Committee. Our company has significant investments on the West Coast and P66 currently the Chair of the Board for the Western States Petroleum Association (WSPA).

With respect to issues, Larry wants to thank the Administrator for his efforts evaluate regulations, the process, and to look for ways to streamline regulations. Regulatory reform is a key issue for Larry, and

our company fully aligns with the AFPM comment package.
The primary issue discussion for Larry is the RFS, and our priority goal to reform the program. Larry would like to share his thoughts on RFS reform, and other issues associated with the RFS. Larry is interested to discuss the future of hydrocarbon-based fuels, and how current policies may affect the US refining future.

If you have any questions my direct cell is [redacted]. We really appreciate the opportunity to introduce Larry to the Administrator.

Request: Any chance you have time in the next week or so to meet with me and a client, the Rubber Manufacturers Association (RMA). We would like to come in and discuss issues in your purview relative to the domestic tire manufacturers - including the nanomaterial reporting rule, residual risk and technology review, Phase 2 rule, biomass and TSCA implementation. Following are some bullets from a letter they transmitted in May, just to give you some color of what's currently on their radar.

* RMA encourages EPA to meet the court deadline (2018 or 2020) for

EPA-17-0432-C-000979

completing the RTR review of the Tire MACT

* RMA members are committed to effective implementation of the Frank R. Lautenberg Chemical Safety for the 21st Century Act (LCSA).

* RMA recommends that EPA stay the effective date of the nanomaterial reporting rule until guidance is issued to clarify reporting obligations in the rule.

* RMA encourages EPA to accept RMA's petition for reconsideration of the Phase 2 rule and issue technical corrections to address the issues raised.

* RMA recommends that EPA designate biomass as carbon neutral and remove the burden of ASTM testing to determine the biogenic fraction of tire-derived fuel (TDF).

Subject: Introduction

Hi Brittany,

It was great to meet you at the Chamber meeting yesterday morning. I really appreciated hearing your perspective on all of the opportunities you and your team have at the agency. As we discussed, I work at Cummins and lead our government relations efforts on energy and environment issues, including truck and engine regulation for fuel efficiency and NOx.

I also mentioned that my colleague, Brian Mormino, was in town for meetings with the White House and your colleagues Ryan and Mandy (cc'd) at EPA to discuss some of these issues. I know we wanted to follow up with Mandy and keep you all in the loop on our discussions with the WH (Mike Catanzarro) regarding potential regulation streamlining and next-tier NOx, and I wanted to see if you might have time for a 30 minute meeting or call with me and Brian to fill you in on discussions.

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Request: I am writing on behalf of the Brick Industry Association (BIA) to request a meeting with Administrator Pruitt. BIA is a national trade association representing clay brick manufacturers, distributorships, and their suppliers. Two-thirds of all the brick shipped in North American is manufactured by BIA members. In addition, many BIA member companies are family-owned small businesses. Many of BIA's members are subject to a recently-promulgated National Emissions Standard for Hazardous Air Pollutants for Brick Manufacturing (i.e., the "Brick MACT"). BIA has a pending challenge to this rule in the DC Circuit. BIA does not want to discuss the litigation with the Administrator. BIA does hope to discuss with the Administrator the enormous impact that the rule is having on the industry and some of BIA's ideas as to how the rule could be improved and the burden lessened. A group of BIA members will be in Washington, DC, on Thursday, June 15. A meeting that date would be ideal. If that does not work for Administrator Pruitt, we would appreciate any suggested alternative dates.

Location 3500 WJC-N
Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Attendees:

Tom Geier, Manager, 3M Government Affairs

Paul Narog, Manager, Environmental Operations

John F. Metzger, Sr. Environmental Specialist

Request: We would like to meet with you to discuss 3M's ideas for regulatory reform, which we provided to U. S. EPA in accordance with Executive Order 13777. A number of changes that we suggested should fit nicely the dual criteria of "timing" and "simplicity" that you spoke about during today's ACC meeting. We would especially like to discuss with you how a number of the New Source Performance Standards (at 40 C.F.R. Part 60) constrain research and development, which is the lifeblood of innovative companies such as 3M, and remedies that we believe EPA can readily put in place.

Subject: RE: AFS - GA FLY-IN AGENDA

Hi Sydney,

There are no ethics concerns with respect to this event. See the following for more complete details.

Best, Jennie for OGC/Ethics

White House Ethics Pledge

The White House Ethics Pledge does not allow political appointees to accept gifts from registered lobbyists. The persons extending the invitation are not registered lobbyists or lobbying organizations, therefore the Ethics Pledge is not implicated.

Acceptance of Free Attendance (including a meal)

Because the official has been invited to speak and present information on behalf of the agency, pursuant to 5 CFR 2635.204(g)(1), acceptance of free attendance and any meals provided on the day of the event is not considered a gift. The official's participation in the event is viewed as a customary and necessary part of his performance of the event and does not involve a gift to him or to the agency. While free attendance will cover a meal that is provided to all attendees, it does not cover side events, receptions, and other meals (like a speaker's dinner) that are not open to all attendees.

Financial Disclosure Implications

Because this is not a gift, there are no financial disclosure reporting obligations.

ISRI is hosting a briefing for our 10 largest company's senior management (CEO, President) to better understand what is happening in Washington at the Congressional and agency levels. These companies primarily process ferrous (steel) and non-Ferrous (copper, brass, aluminum, etc.) metals. However, ISRI represents companies that process other materials such as plastics, paper, rubber, electronics, and textiles. Background material are attached.

Samantha will plan to join the meeting at 10:00 a.m. and give some overview remarks about EPA's work (5-8 minutes) followed by Qs and As.

The meeting will be held at ISRI's offices at 1250 H Street, NW, Suite 400. Building security will have her name in advance and someone will meet her upon her arrival.

We will have approximately 10-12 company representatives and ISRI officers (tentative list below), 4-5 ISRI staff plus Governor Haley Barbour and 1-2 BGR staff.

Morning Amy,

It looks like Wednesday, June 21 at 2:00 will work best. Let me know if that works on your end and I will confirm. Will it be just Bob or will others be attending as well? If so, I will need all attendees full names to send to security. Additionally, if you could give a brief overview of the topics to be discussed and send over any materials that we should review beforehand that would be great. Any questions just let me know.

Best,

Alex Dominguez

Hi Amy - I was informed this was going to be a face to face as Bob would be in DC the 21/22. If this is incorrect not a problem and we can do it over the phone.

I'm GM's lead Republican managing our Federal team – I'm sorry that I don't think we've met in person yet. As you know, GM General Counsel and my boss GMNA VP for Public Policy met with the Administrator in April. I think that Mandy and Brittany were also in the meeting. We were hoping to schedule a meeting with the three of you and some of our technical folks from Detroit next week or the following regarding the fuel economy mid-term review and harmonization of EPA/NHTSA fuel economy standards.

Request:

I am writing to follow up on my invitation to speak to the Class of ’85 meeting on June 28, at 12 pm central. As I noted, the meeting will be hosted by one of our members in Maple Grove Minnesota. We would be happy to host you in person, or to set up a video conference from

our offices located at 1299 Pennsylvania Ave, NW, Washington, D.C.

The Class of '85 is a diverse group of electric generating companies located throughout the country. The Group was originally formed in 1990 following the promulgation of the Clean Air Act amendments. In 2015, a subset of our members formed a work group, known as the Cross-Cutting Issues Group, focused on waste, water, and wildlife issues affecting the electric generating sector. These members have an active interest in the development of electric generating and associated infrastructure. A list of Class of '85 members is attached for your review.

We appreciate your consideration of our invitation, and are grateful for the opportunity to hear from EPA about its priorities and ongoing regulatory reform initiative.

Hi Mandy-

Hope all is well with you. We were slated to host your boss in a week or so over at our Mercedes-Benz USI plant in Alabama, but unfortunately the scheduling kind of unraveled and it's a no-go. Hopefully we find another date down the road!

In the meantime, I was wondering if you might have some time to meet with me and my colleague, Bill Craven who handles regulatory affairs? Bill is really the point person here in DC for Mercedes-Benz on all things GHG, Mid-Term Review-related. Was wondering if you have some time over the next week or so for a meeting? I know Bill would like to meet you and give you an update on our views related to GHG/CAFE issues.

The hearing will be held from 9:00 am – 4:00 pm in the EPA East Building. Over 100 speakers have already registered to speak.

We also briefly mentioned the issue to you during our meting and my colleague Terry Heubert and I would greatly appreciate the opportunity to discuss the issue in more detail with you and EPA's approach to the Senate language.

Request: My friend and co-author, Oren Cass of the Manhattan Institute, has written far-and-away the best commentaries in recent months on climate, Paris, and the EPA. He has some advice for you on some things to consider as Administrator Pruitt structures his red-blue team approach. Specifically, he wants to urge you that one of the most valuable things you could do is to study the "baselines" that are being used to forecast potential emissions trajectories; this is a huge shortcoming of current science and is being badly mischaracterized/misused. An EPA analysis of it would be hugely valuable. I can't recommend strongly enough that you meet Oren soon Here's his bio <https://www.manhattan-institute.org/expert/oren-cass> . Hi Aaron-
Thanks for your email. Samantha Dravis the AA for Policy, as well as Sarah Rees in OP should be part of this discussion. Samantha and I have a briefing with the administrator that is scheduled to end at 4:30 tomorrow, but we never end those on time. That said, would 5pm work for a call?

Hey Brittany,

I was wondering if you, Mike and I can have a call on the draft report for Section 2 of EO 13783 that is due at the end of the month at 4:30pm tomorrow. I am not sure who else from EPA should be on the line, but if you can add them to the call, I would greatly appreciate it.

You can call Mike's office at [redacted] at 4:30, assuming that time works.

Please let me know if you have any questions and if that time works.

Thanks.

Subject: RE: Pennsylvania Energy Solutions -- RFS Emergency Waiver

CONFIDENTIAL BUSINESS INFORMATION

Mandy and Alex –

I wanted to follow up regarding Philadelphia Energy Solutions request for an emergency RFS waiver. Three things have happened since our meeting on June 21st -- the United Steelworkers are threatening to strike due to PES' difficult decision to suspend pensions and decrease the company's contributions to its employee health care plans, the company has retained bankruptcy counsel, and the company is in the process of engaging a firm to advise PES on restructuring. The timing is becoming critical to the company's ability to continue operating

without violating the Clean Air Act (by buying RINs), and the RIN liability on the books is impacting the company's ability to refinance its debt.

Would it be possible to schedule a call later today or tomorrow to discuss PES' request that EPA use its waiver authority? Because of the timing concerns, the company has begun preparing the petition, but we would appreciate your feedback in advance.

Thanks,
LeAnn

Subject: Pennsylvania Energy Solutions -- RFS Emergency Waiver

CONFIDENTIAL BUSINESS INFORMATION

Hi Mandy and Alex --

I know you have not had a lot of time to consider it, but I wanted to circle back and see if you have any preliminary reactions to PES' analysis that EPA may use its waiver authority to avoid severe economic harm to PES from compliance with the RFS for the 2016/2017 compliance years. Is there any additional information – legal analysis or additional facts -- that would be helpful to EPA's decision making? If EPA agrees with this path forward, we will begin preparing a waiver petition to support the company's request.

Thank you for your consideration of PES' request.

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Subject Senior Leadership Council Meeting - Day 2
Location WJC-N 3rd Floor, The Green Room
Show Time As Busy

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people

new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Subject Meeting with the Plastics Industry Association - Call in (b) (6) Code: (b) (6)
Location 3500 WJCN
Show Time As Busy

Thank you for the introduction and welcome. The Plastics Industry Association (PLASTICS) and members of its EHS+ Committee are very much looking forward to meeting with members of EPA's Office of Policy team. This is particularly timely given last Thursday's release of the Unified Agenda.

Implementation of the amended TSCA remains a key issue, and a key theme is EPA resources. Below is a list of other important issues for our members (neither all-inclusive nor prioritized) that will also be discussed with additional Agency offices. We'd like to focus on specific actions EPA could take that would be most helpful to our industry and that would not require changes to regulations, as well as discuss how we might address challenges that may require regulatory changes with notice and comment.

Chemical Substances
- Implementation of the amended TSCA
- TRI reporting

Air
- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities
- Revisiting concepts of flexible air permitting, netting and debottlenecking, reporting frequency
- Leak detection and repair monitoring requirements for connectors
- “Once in, Always in” Policy for MACT standards
- Routine maintenance repair and replacement under NSR
- Commencing construction and beginning actual construction under NSR
- Project aggregation rulemaking (PSD and NSR)
- Air quality modeling analysis and monitoring requirements

Water
- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities
- Pelletized and solid resins and wax under the SPCC component of EPA’s oil spill prevention program
- Synthetic Organic Chemical Manufacturing Industry (SOCMI) wastewater proposal of 1994, amended in 2004

Waste
- Petition for review of the Hazardous Waste Generators Improvements Rule, and potential options
- CERCLA Superfund challenges to advancing rehabilitation

I reached out to Mr. Schuette to give me your contact information because I wanted to keep Mr. Pruitt's office in the loop regarding op eds in the Washington Times. The Times will be running a section on energy. When they have asked me to submit an op-ed on the topic of ethanol, they mentioned that they would also be publishing an op-ed from Mr. Pruitt.

Attached is what I have submitted. I suspect that my views are in line with those of Mr. Pruitt, but I wanted to provide him an opportunity to comment on what I wrote. Any comments or suggestions that his office has would be welcome.

Location 726 Jackson Place, the White House Conference Center
Show Time As Busy

Due to the expected turnout, we will be moving the meeting to the Lincoln Room at the White House Conference Center. The White House Conference Center is located at 726 Jackson Place, right next to CEQ, and does not require any preclearance. You will need to bring your ID. We will have a staffer bouncing between the Lincoln Room and the entrance to the White House Conference Center to try to make sure everyone gets in without incident.
For those of you who cannot attend the meeting in person, below are all the conference line details:
Participant Dial-In: [redacted]
Participant Code: [redacted]

Thank you for working with us and I look forward to seeing everyone tomorrow. My direct line is [redacted] - please don't hesitate to call.
Chris

EPA-17-0432-C-001209

Feel free to forward to others in your offices.

I will update the invite with call-in information sometime next week. In the meantime, feel free to call me at [redacted] if anything comes up.

Below is my original invite:

Hey everyone,

If I don't already know you, my name is Chris Prandoni and I am the Associate Director for Natural Resources over here at CEQ. Included on this email are EPA, FWS, Commerce, and USDA representatives. Since there are a lot of new faces in town, myself included, I have spoken to either you or someone else at your agency about the desire for the Services to update the rest of the federal family on the biological opinions for chlorpyrifos, malathion, and diazinon.

The idea would be for FWS and NMFS to take about 20 minutes each to explain the status of their opinions and then open it up for questions. I know this is a quick turnaround, but ideally we could all get together at CEQ's office in Jackson Place 730 next Tuesday (7/25) or Wednesday (7/26). If you are unsure about whom within your agency to invite to this meeting, there should be someone from your agency copied on this email who can help you identify the correct people to coordinate with.

Since there are a lot of moving parts, whenever an agency identifies a window that works for their team, feel free to propose that time or window to the group. Of course feel free to call me with any questions you may have. My direct is [redacted]

Thank you very much; look forward to working with all of you.

Chris

Location 1200 Pennsylvania Avenue, NW (North) - Room 3530 WJCN
Show Time As Busy

Location: 1200 Pennsylvania Avenue, NW (North) - Room 3530 WJCN

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station.

EPA Contact: For an escort from Security to the meeting call 202-564-3164 or (b) (6)

Request:

Follow up on Erik's inquiry asking us to reiterate TTMA's request for a meeting with EPA on its petitions to the Agency for reconsideration of the trailer GHG rule and an administrative stay under the APA or Clean Air Act.

Discuss EPA's path forward, as the industry faces a compliance date of January 1, 2018, which requires both immediate investments to achieve compliance and will cause customers to shift business away from large manufacturers who are subject to compliance obligations and toward small volume manufacturers who have exemptions. This is creating tremendous pressure on TTMA members to do something to address compliance obligations with a rule that they believe is both unlawful and contrary to the current Administration's policy.

Although TTMA is concerned about the government's request for a 30-day extension to the abeyance of the pending litigation because that will defer the process to obtain relief from its current situation, we are amenable to considering this further together in a meeting hopefully on July 31, and extending the abeyance to accommodate this approach until August 4.

Attendees:

1. Rick Mullininx, Executive VP, Great Dane Trailers

2. George Gauntt, Sr. Director of Product Innovation, Kentucky Trailers

3. Peter Weis, Chief Engineer, Polar Tank Trailers

Location 3513A

I hope this email finds you both well and thriving. The purpose of my meeting was two-fold. One is that I want to introduce myself, as an 30 year EPA employee, President of the William D. Barber, Jr., Chapter of Blacks in Government (BIG) here in Headquarters, and share a little history and background about both the organization and the chapter. Also, to share with my goals and objectives for the chapter during my tenure. Second, I want to extend an invitation on behalf of the Chapter, to Samantha to participate in our Agency forum that we have just about every year at the BIG annual training conference. Furthermore, it would be an honor and a pleasure if she would be the keynote speaker for the forum. The Agency forum will be held Tuesday, August 22, 2017, from 9:00am-4:30pm, at the Harrah's Resort and Casino, Atlantic City, NJ. Our theme for this year is "Resiliency In Uncertain Times" (announcement attached). I have prepared a packet to leave with you during our meeting, and I will bring it with me should we get the opportunity to do so. However, I have attached some of what is in the packet for your information and to give you an idea of what the organization is about. Also, here's a link which outlines the organizations goals and objectives, http://www.bignet.org/index.php/about-us/goals-and-objectives <http://www.bignet.org/index.php/about-us/goals-and-objectives> .

Finally, if you are able to participate, please do not hesitate to let me know, if not thank you for the opportunity to share BIG with you and hopefully, we can count on your support for future programs and events. Have a great day!

Subject: Correction of EPA's Blanket Prohibition on Beneficial Use of Coal Combustion Residuals to Reclaim Clay Mines

Dear Mr Johnson;
I am writing on behalf of Charah, LLC ("Charah") to request that EPA correct an erroneous and counter-productive interpretation of the coal combustion residuals ("CCR") rule that imposes an absolute prohibition on beneficial use of CCR to reclaim clay mines. Details of our issue and request are included in the attached letter. Charah requests that after review of our letter and matters related to the issues, we, and other interested parties, be granted an opportunity meet with you and other appropriate EPA representatives to discuss the issues. A copy of the attached letter has been mailed to your office.
Charah appreciates your consideration. If there are any questions, please contact me at (502) 410-9295 at your convenience.
Thanks,
Danny Gray

Subject CASAC Membership Briefing
Location RRB 31150
Show Time As Tentative

Would it be possible to please schedule a 30 minute briefing for Dr. Yamada next week on CASAC Membership? At Thursday's briefing when we briefed Dr. Yamada and Ms. Bolen re SAB. At this meeting, he brought up expectations for rolling out CASAC and SAB membership. Chris agreed to provide Dr. Yamada CANDIDATES received for the committees. We are requesting to please brief Dr. Yamada, Thursday August 10, on CASAC.

Date: TBD-August 10, preferred. (August 9-pm, if needed)

Time: 30min

Location: ORD? or RRB 31150-SAB Conf. Rm.

BACKGROUND: The Science Advisory Board(SAB) Staff Office follows a developed a process to solicit nominations for EPA's SAB/CASAC advisory committees. Unique to SAB/CASAC, once nominations are submitted, the DFOs contact the nominee, confirms interest, and requests/obtains biosketches. Then the staff office posts the names for public comment. We would like to provide a heads up to Dr. Yamada, answer any questions, and request additional information/names he may be seeking before we post and go live for CASAC. In other words, Dr. Yamada may need to meet with others quickly in order to please provide us with what we need. We will brief Dr. Yamada on CASAC first, and will follow up with the Chartered SAB the following week. In case, Dr. Yamada asks-CASAC has 7 members and we can turn this around a little more quickly. SAB has more. However, I will pencil in a briefing on the Chartered SAB with you as well.

Invitees:

Required: Dr. Richard Yamada, Director Chris Zarba, DFO Aaron Yeow.

Optional: COS Elizabeth Blackburn, DD Khanna Johnston, SAB. Please add other ORD staff the DAA would like present.

Decision Needed: After the briefing, we will need Dr. Yamada to give us the go ahead to post the names for public comment, if possible by August 11, or as soon as possible (to accommodate 21 day comment period).

Thank you kindly, please don't hesitate to reach out if it's best if I set this up, I just wanted to provide you enough information so that you may be able to run this by Richard and Liz.

Thank you kindly, khanna

Subject REMINDER: FY 2017 MANDATORY TRAINING Sessions Must be Completed by September 30, 2017 - Get These Done Now!

Show Time As Busy

IMPORTANT REMINDER

Please Make it a Priority to

Get These Completed Well in Advance of the Deadline

Online Mandatory Training Must be Completed by AO Career and

EPA-17-0432-C-001289

Non-Career Employees,

Contractors, and Grantees (including SEE Grantees)

by September 30, 2017

It is a new year and we can and should all be in compliance with the Agency's timeframe. The deadline to complete online mandatory training is 'just' some 70 calendar days away! Let's avoid the late rush that happened last year when many people were pressed to find the time to complete the courses on time.

Good News! All of the EPA 2017 Mandatory Training courses are now available. Everyone, including career and non-career current employees, contractors and grantees will find the courses at their "View Learning Plan & Mandatory Training" section on the EPA eLearning site <http://go.usa.gov/xKZFd> . Please keep in mind that YOUR user name and password are required to access the EPA eLearning site.

* For Everyone's Convenience: All FY 2017 mandatory courses, including those for new employees are also listed on the EPA University SharePoint site: http://workplace.epa.gov/training.html <http://workplace.epa.gov/training.html>

* IMPORTANT INFO for EPA's New Employees: New employees will receive a Welcome to EPA eLearning email containing instructions for accessing training courses in the EPA eLearning site within two weeks of their employment. New employees are required to complete specific courses within their first 90 calendar days of employment. Otherwise, all courses are to be completed within 6 months. (See Attachment).

* ATTENTION: New and Existing Agency Contractors and SEE Grantees with an EPA e-mail Account: There are just a few specific courses you are assigned to take during FY 2017, including the Information Security Awareness Training and the Domestic Violence training. The annual Records Management training is required for those Contractors who are required to complete it based on the specific contract language.

If you have any questions or need additional assistance, please contact me.

Regards!

Brittany,
Last week I talked with Mandy when we were on a panel at ALEC in Denver. She said that I should talk with you about the social cost of carbon. I was wondering if we could find some time to talk. Do you have a scheduler I could work with to find some time on your schedule?
Thanks,
Daniel Simmons

Hi Alex –

I hope you had a happy weekend and again, many thanks for helping to get the NEDA/CAP meeting on the schedule with Mandy, Justin & Brittany. Mandy suggested that we come back for another round this week when the calendar would be a little more open. If you want to let me know when that would be, I will alert the NEDA/CAP gang and see who is available.

Also if you would please check with her, did EPA just want to talk about offsets or did we want to revisit some of the issues we "tore through" earlier in the meeting? They had to depart our meeting hastily for another. 😊

Best regards,

Attendees: TBD

Request: On behalf of the combined 3.5 million members of the United Association (UA) and North America's Building Trade Unions (NABTU), I request the pleasure of a meeting with you, President Mark McManus of LIUNA and President Sean McGarvey of NABTU on July 5th 2017. UA and NABTU members care about infrastructure; and that is what we would like to discuss with you. Our members often benefit from the good paying jobs that are a byproduct of development and deployment of all types of infrastructure, from pipelines, to highways and waterways. UA and NABTU have a track record of supporting projects that will create union jobs and we maintain an all of the above approach to energy development.
We are particularly enthused to see the department's efforts to streamline project permitting. An acceleration of permitting and construction of infrastructure carries with it the potential to create

thousands of jobs with extensive economic multiplier effects across the United States economy. Specifically we would like to discuss how we work together on the Administration's infrastructure development agenda and share our ideas for public policy that will further our mutual goals: jobs and a growing economy.

Subject: confirmed - Recent Circuit Court Decision on SNAP

Hi Mandy,

I am happy to confirm the 1:00 tomorrow, Thursday, August 31st meeting on the SNAP decision. Thank you again for getting us in so quickly. The attendees will be:

Joe Trauger, AHRI, Senior VP of Policy and Government Relations

Kelley Raymond, AHRI, Director, Government Relations

Deirdre Stach, Mercury, Senior Vice President

We are in the process of seeing if there may be another addition to this list. As so many of the senior staff are on vacation right now, would it be possible for a call in?

I understand that we should come to the North Entrance of EPA and ask for you. If there are any changes to those directions please let me know.

Thank you again and looking forward to our conversation tomorrow.

Subject: Fwd: Recent Circuit Court Decision on SNAP

Mandy-- What is EPA's general time frame on deciding its next steps on this? I want to make sure our suggested mid-September time frame for a meeting would not be too late for effective AHRI input regarding whether to appeal, etc.

Subject: Re: Recent Circuit Court Decision on SNAP

Thanks so much for being so helpful and responsive, Alex. In order to first hear from all of its members, AHRI would prefer a meeting mid- or late-September, ASSUMING EPA will not be making relevant decisions before then. Mandy--Is that any danger?

If not, let's reconnect near Labor Day regarding scheduling, Alex.

Subject: Meeting Request
Importance: High

Dear Robin:

As you suggested earlier this summer, I am contacting you to see if we can schedule a meeting in the near future with Mandy and Brittany to discuss next steps on the issue of the Clean Air Act Standards for MSW Landfills. The 90-day stay will expire in two weeks and the proposals for stay extension are still with OMB. We know that the states and regulated community will have many questions regarding how and when to comply with the Subpart XXX and Cf rules once the stay expires; states expressed such concern in their regulatory reform comments. We are concerned that staff within OAQPS, OECA and the regions will receive questions and there is a high risk of inconsistency and miscommunication with respect to intended implementation of the rules, especially after the stay period. This is particularly worrisome as staff now involved in implementing the new rules have no familiarity with landfills and had little or no role in the lengthy regulatory history that led to their promulgation.

We would very much like to discuss with Mandy and Brittany the Agency's next steps for a stay extension, planned schedule for a reconsideration/rulemaking initiative, as well as guidance to the states and regulated community regarding compliance in the transition.

A number of meeting participants will be coming in from out of town, but if you can give us several possible dates in August and/or early September, we will make every effort to accommodate Mandy and Brittany's busy schedules. I will follow up with a phone call.

Thanks so much for your help,

Kerry

We'd like to discuss the "electric pathway," which is a part of the Renewable Fuel Standard that would allow small animal farms, like dairies in Wisconsin and Pennsylvania, to benefit from the generation and sale RINS. A final rule promulgated three years ago gives EPA significant flexibility to implement the electric pathway by approving applications on a case-by-case basis, but EPA staff have been pushing for yet another rule-making.

BTR Energy is an applicant under the electric pathway, and we're completely unique in our focus on driving value to parts of the animal agricultural industry. We'd like to discuss approving our application and adjusting the 2018 renewable volume obligations to account for the RINs we can currently create. We work with almost two dozen dairy, swine, and cattle farms across the country that would immediately benefit from our program, and our work now has the support of over a dozen members of Congress, including folks like Congressman Chris Collins from NY and Congressmen Mike Gallagher and Sean Duffy from WI.

Approving our application shouldn't be a big lift for EPA staff, in our view. The supply and delivery of the renewable fuel (electricity) is there, and we've done most of the work, as the rule has been in place and inactive for three years (we can discuss that more in the meeting). In that way, the program is extremely efficient: low effort for EPA, high impact on farms that have traditionally been locked out of the RFS.

I've attached a summary document that explains the issue and profiles two of our partners. I've also attached a letter of support one of our partners wrote to their Congressional representatives and an executive summary of BTR Energy.

We've had more than a half dozen meetings with staff in the OTAQ office over the last three years. Last week I had coffee with Ben Hengst, who supports Chris Grundler, the director of OTAQ. Ben suggested we aim to meet with Mandy Gunasekara individually so

EPA-17-0432-C-001393

that we could be candid about our experience.

We also met with Mr. Kell Kelly last week, who agreed that Mandy is the right person.

I hope all that helps. We can provide a lot more context in the meeting.

Time 12:00 PM – 12:45 PM
Subject Minnesota Pork Producers
Location 3530 WJCN
Show Time As Tentative
Request:

We will be having our fall legislative fly in the second week of September. As part of the fly in, I was wondering if it is possible to schedule a briefing with you, or other senior EPA staff on September 12th to discuss various priority environmental issues with the Minnesota Pork Producers. Minnesota is the number two state for pork production, behind Iowa.

This would be primarily more of a “getting to know you” meeting with a general discussion on issues on the farm than any specific in depth focus on any single issue.

However, issues of note for Minnesota include the following:

* Nutrients, the value of manure, and water quality standards.
* Air Emissions Reporting from livestock farms
* EPA’s NESHAP for Reciprocating Internal Combustion Engines (on farm backup diesel generators) 40 C.F.R. Part 63, Subpart ZZZZ

Attendees:

Michael Formica, National Pork Producers Council

David Preisler, Executive Director, Minnesota Pork

Jill Resler, Chief Operations Officer, Minnesota Pork

Lauren Servick. Director of Communications and Marketing, Minnesota Pork

Jay Moore, President, Minnesota Pork

Greg Boerboom, Vice President, Minnesota Pork

Ben Johnson, Minnesota Pork Ambassador

Daryl Timmerman, Board Member, Minnesota Pork

I doubt I would even need to take up 30 minutes of Brittany's time. To provide some background for you, Patrick Sheahan (Chief Development Officer of Navy Pier) will be coming into DC on Wednesday, September 20 for meetings. The purpose of my call with Brittany is to try and explain the environmental impact and

achievements that Navy Pier has been making in the Lake Michigan/Chicago region and to try and identify a meeting opportunity for Patrick while he is here on the 20th.

I've attached a fact sheet for Brittany's reference.

Thank you again,

Subject: Mandatory Information Security Training--DUE on SEPTEMBER 15th, 2017 to avoid network disconnection.

Good Morning,

This blind copied email is to remind you of the FY 2017 Information Security Awareness Training. The Federal Information Security Modernization Act (FISMA) requires that all EPA information system users complete security awareness training annually. The training period for the Office of the Administrator was extended to September 15th, 2016. If the training is not completed, DISCONNECTION FROM THE NETWORK WILL BE SEPTEMBER 16TH, 2017.

This training course, FY17 Information Security Awareness and Training, emphasizes user responsibilities as they pertain to specific threats, as well as other relevant information security issues. The training can be access through EPA's eLearning site http://workplace.epa.gov/elearning.html <http://workplace.epa.gov/elearning.html> . The site can be accessed 24 hours a day, 7 days a week, from work or from home, allowing users flexibility in meeting this annual training requirement.

If you have any problems logging into or using the site, please contact the EPA eLearning customer support center at EPA_elearningsupport@skillsoft.com <mailto:EPA_elearningsupport@skillsoft.com> or (855) 489-4EPA.

The Information Security Awareness Training course takes about 30 to 45 minutes to complete. You have the option of printing a certificate upon completion for your personal records. However, eLearning automatically tracks your completion status. Instructions for logging on to the site and accessing the course are attached for your convenience, which includes additional information for users of assistive technology.

In FY 2016, EPA achieved 100% compliance. With your continued cooperation, we will reach 100% this year. I appreciate your commitment to achieving this goal.

If you have any questions on this matter please contact James Howard 564-0407 / Ganiat Aiyegoro 566-1798.

Have a great day.

“Service First, People Always”

Topics:

- Seeking high-level advice concerning RPM Act.

- Brief discussion on SEMA collaboration with agencies (EPA, CARB).

The Specialty Equipment Market Association (SEMA) is a trade association comprising of small to medium businesses involved in manufacturing and distributing automotive parts. These parts are intended for installation on racing vehicles as well as street vehicles to

EPA-17-0432-C-001473

improve performance, handling and appearance. The industry is about $39.2 billion in business, has approximately 1 million workers. Racing alone is about a $1.5 billion industry. There are 36 million "customers." The major publisher of car magazines reaches 20 million subscribers. The SEMA Show in Las Vegas has about 160,000 attendees from the industry. No consumers. It is also the largest auto parts show in the world. SEMA also has the PRI Show which is strictly racing, that is, racers, race teams, racing organizations, car manufacturers, etc.

SEMA has worked closely with the EPA to assure that parts used on street vehicles have complied with governmental certification programs demonstrating that such parts do not adversely emissions. SEMA is the greatest asset available to the EPA in eliminating “defeat devices.”

After 40 year of collaboration on important environmental programs, and without warning, the EPA announced that they have and intend to use authority to regulate vehicles used solely for competition as well as parts used solely for racing. This is a clear case of unnecessary, overregulation of an American institution, motorsports, enjoyed by millions of people, responsible for the employment of millions of people and responsible for multiple millions of tax revenues. This is small business. This is a significant example of middle American who have not had a voice in Washington.

SEMA and a coalition of organizations including virtually every motorsports sanctioning organization in the United States concluded this could not stand. SEMA initiated a Petition to the White House in opposition to the EPA action and secured over 100,000 signatures within 24 hours, to our knowledge the largest number of people to participate in the shortest amount of time. SEMA also pursued legislation in the last Congress. The bill, the RPM Act, would make clear that the EPA did not authority to regulate racing, had 120 bipartisan cosponsors in the House and 28 bipartisan cosponsors in the Senate. It was introduced late in a Presidential election year and did not pass the Congress.

The Bill enjoys bi-partisan support at this time and is moving again. At this time, this Bill is currently in the Committee on Environment and Public Works and seems to be moving quickly. We are in need of your valuable advice on this Bill that could move quickly with bi-partisan support. This legislation seeks to address the type of overregulation that earned the ire of the President and EPA Administrator Pruitt.

Attendees: TBD

Request: I'm sure you saw the recent court ruling on HFCs and the SNAP program and I know you are busier than heck, but it really would be beneficial if I could meet with you on this when I am in DC the week of Aug 21. We are already hearing from senior leaders from our

appliance manufacturers. Can you meet with me to discuss this? I am not expecting any final decisions from you at this early stage. I just think we need to understand the possible scenarios and possible impacts of each as you weigh your options. I will be meeting with CARB shortly, too. PS - also as a heads up we are discussing the likelihood of some of our CEOs coming to DC in Sept/Oct to meet with a few key Trump Administration leaders, and Administrator Pruitt would hopefully be one of those meetings we would be able to coordinate.

Time 4:30 PM – 5:15 PM
Subject Tri-State Generation and Transmission
Location 3528 WJCN
Show Time As Tentative

I am writing on behalf of Tri-State Generation and Transmission to request a meeting with Mandy Gunasekara. If possible, we would like to meet with her on Thursday or Friday of next week, the 28th or 29th. We are available any time on the 28th or 29th except 1:00 – 2:30 on Thursday. If you have any flexibility, Thursday morning or Friday after 10 a.m. would be ideal, but we will make ourselves available any time that works for Ms. Gunasekara. The purpose would be to talk about the proposed Holcomb 2 power plant in Kansas, a new 895 MW coal-fired unit that Tri-State and Sunflower (another rural coop) have been developing for many years. Tri-State is the lead developer and owns 7/9ths of the project.

Just a few weeks ago, after 11 years of permitting and litigation, the Kansas Supreme Court upheld the PSD permit for Holcomb 2, and we now have all the government approvals needed to proceed with construction. Given the time needed to permit any coal-fired plant, we believe that Holcomb 2 is probably the only coal-fired plant that can be constructed in the U.S. in the next 5 years.

Along with me, the only person attending the meeting on behalf of Tri-State would be Barbara Walz, the Senior VP for Policy and Compliance at Tri-State.

Please let me know if you have any questions.

Thanks,

Jeff Holmstead

Details on what he wants to ask...

The Economist is producing a long package on deregulation during the Trump administration. The EPA has been perhaps the most active agency when it comes to taking regulatory action. I am hoping to speak with a high-level official who would be able to provide for me:

* The progress and pace of deregulatory actions in concrete terms.
* Active areas of rulemaking which would have the effect of rescinding Obama-era regulations
* The cost-benefit calculations behind these determinations.

We would appreciate detail and granularity on these issues.

Hey, David,

Brittany has a conflict, but she asked that I pass along this speaking invitation to see if you might be interested. The event draws about 400 lawyers, non-lawyers, and media personnel. If you are interested, please let me know, and I can connect y'all.

Subject: FW: An invitation from the Energy Bar Association

Dear Ms. Bolen:

As Vice President of the Energy Bar Association (EBA), I'd like to invite you to speak on a panel discussion at this year's Mid-Year Meeting, scheduled in Washington, D.C. for October 16-17. Forgive the late date for the invitation. We had invited Ms. Samantha Dravis initially, though she recently let us know she was unable to make the meeting. I think this is a good forum for the Administration to outline its plans, and it has been suggested to us that you would well represent the EPA.

EBA, as perhaps you know, is the preeminent association of legal professionals in the energy industry, comprising some 2000 attorneys and energy professionals nation-wide. We publish the Energy Law Journal, the nation's foremost legal publication in the energy industry, and sponsor several symposia throughout the year. The Mid-Year Meeting is one of our signature events, and generally attended by

several hundred attorneys and policymakers. EBA's website is here: www.eba-net.org <http://www.eba-net.org> . A link to the Mid-Year program is here: http://www.eba-net.org/2017-eba-mid-year-energy-forum <http://www.eba-net.org/2017-eba-mid-year-energy-forum> . Other Administration appointees speaking at the event are FERC Chairman Neil Chatterjee and recently appointed FERC Commissioner Robert Powelson. ls

The panel on which we invite you to speak will be held October 17, from 9-10:30 and will be held at the Renaissance Hotel (999 9th Street, NW). We would ask you, as you might imagine, to address the Administration's environmental policy as it affects the energy industry. Other panelists will include Andrew McKeon, President of the Northeast RGGI, and Ben Longstreth, with NRDC. I can promise you a high-level academic-oriented discussion, in which your participation would be most welcome. Kindly let us have your reaction, and please feel free to contact me with any questions.

With best regards,

Jon

Request: Earlier this year, our client the National Marine Manufacturers had a very productive meeting with your team at the EPA focused on E15 issues. At that meeting, we also raised an issue regarding something called HFC 134a. NMMA member company Structural Composites is using HFC 134a to produce some extraordinary new products – ultra-light weight composite material being used to make boats and truck trailers primarily, but they are hindered by EPA regulatory issues.

Per discussion just now with SD & BB – OGC's edits have been passed

on to OAR/sharepoint.

Per an email from Josh Lewis Tuesday, there are a bunch of outstanding edits responding mostly to OMB policy issues.

OP requests that we find a time today or tomorrow for the team on this email to go through the remaining issues (Erik, I'm including you in case OP/Mandy need counsel on the pending litigation, but I understand if you can't make it).

It would be good to close this out tomorrow, which I understand is AS's last day as the OIRA desk officer.

Attendees and materials to follow

Hi Mandy and Alex,

I hope this finds you well. In the past, API mentioned the voluntary efforts our companies are engaged in to lower methane emissions. We are working to launch a more formal API Voluntary Program early next year and would like the chance to come in and discuss the program particulars. Right now, our members are reviewing the program requirements and must make a decision about sign on by the first week of November. Are you guys available during the second week of November to chat about the voluntary efforts by industry and how this program, in conjunction with EPA efforts on the NSPS reconsideration, can result in some marked reductions in methane emissions.

Let me know if you have some time the second week in November.

Thank you for your consideration.

Regards,

Hilary

Subject: Request for Meeting - Auto Suppliers on Midterm Evaluation of GHG Vehicle Emissions

Mandy:

I would like to request a meeting in the coming weeks to discuss EPA's reconsideration of the midterm evaluation of the vehicle greenhouse gas emission standards.
As vehicle suppliers we have a strong interest in the midterm evaluation and the vehicle emissions standards. Our position is also not identical to the vehicle manufactures on this issue.

It would be helpful if we could discuss our position and concerns with your office as this process is getting started.

Best,

Laurie

Subject AG Landry (re: Tier IV Emissions Standards)
Location 3530 WJCN
Show Time As Busy

See below. This will be an in-person meeting with General Landry at EPA HQ.

Attendees:

Attorney General Landry, Special Assistant Dustin Danos, Deputy Chief Bill Stiles, Mark Bourgeois, Executive Vice President of LeBeouf Bros Towing, Caitlyn Stewart, Director of Regulatory Affairs with the American Waterway Operators, and Lori Kalani with Cozen O'Conner.

Good afternoon, Alex

My name is Dustin Danos, and I serve as special assistant to Louisiana Attorney General Jeff Landry. Earlier today, general Landry met with administrator Pruitt and discussed certain implications of the Tier IV NOX emissions standards that we believe merit further discussion. I believe that Tate has already spoken with Marcy about establishing a

point of contact for this issue, but we were hoping to get a meeting on the books for sometime between November 16 and 19th, and Tate indicated that you would be the person to contact about scheduling a meeting with Marcy. I have CC'd Sarah Mulé, General Landry's scheduler, so the two of you can work on establishing a good time.

Thank you very much, I hope you have a good weekend.

Subject Strategic Measure Meeting with OP
Location 3402 WJC-N
Show Time As Busy

Colleagues,

I am writing to engage you in the next critical step for developing the FY 2018-2022 EPA Strategic Plan—setting ambitious targets for the 27

EPA-17-0432-C-001682

strategic measures and two-year targets for the nine designated measures for FY 2018-2019 Agency Priority Goals (APGs), as well as developing Data Quality Records for each strategic measure.

To get us started, I am asking that you propose ambitious targets for your strategic measures and APGs. When proposing your targets, please keep in mind that we have identified the strategic measures for areas that we would like to get significantly better as an agency. Think beyond incremental changes to past targets in setting the strategic measure targets. These are the "we are going to send man to the moon and back" types of targets. Picture yourself presenting your targets to an audience of either the customers or taxpayers who would benefit from the target's improvements. Your goal is to receive a standing ovation. Nothing less will be accepted. As an example, the Administrator has set a goal of reducing EPA permitting times below six months. The customers of our permitting processes who have heard this are ecstatic. Remember, we will be using lean to achieve the targets, so not knowing how you are going to reach them is not only alright, but expected. I would much rather us fail in reaching a truly ambitious targets, than achieve not-so-ambitious targets.

I will soon be scheduling meetings in November for us to discuss your proposed targets. I would appreciate receiving proposed targets from lead offices (NPMs/Lead Regions), using the attached template two business days before our scheduled meeting. For cross-cutting strategic measures, lead offices should engage with other contributing offices. NPMs will engage Lead Regions in target setting, relying on Lead Regions to facilitate input from regions and information sharing with NPMs. My goal is to finalize agreements on strategic measure targets by December 8 for inclusion in the final draft Strategic Plan due to OMB by December 22.

By December 8, I also ask lead offices to complete Data Quality Records (DQRs) for each strategic measure using the attached streamlined DQR form; please provide completed, signed form to Judy Lieberman in OCFO. The DQRs document key information for our measures, including source data, data limitations, and the methodology for calculating results. For cross-cutting strategic measures, lead offices should engage with other contributing offices. Please note that the DQRs will be publicly available, and will help facilitate our discussion with OMB.

The ambitious targets for strategic measures will guide development of ambitious targets for the corresponding annual measures in EPA's FY 2019 Annual Performance Plan and Congressional Justification (CJ). Please note that OCFO will provide agency guidance for finalizing annual budget measures and targets by mid-November.

EPA-17-0432-C-001683

A summary of the major milestones is provided below. I look forward to working with you on this critical work to finalize our Strategic Plan over the next several weeks. Please let me know if you have any questions.

Thank you,

Henry

Time 9:00 AM – 10:30 AM
Subject WJCN 2530
Location Training for Active Shooter Preparedness
Show Time As Tentative

AO Colleagues,

Please plan on attending EPA's Active Shooter Response Training on Thursday, December 7th in WJCN 2530 starting at 9:00 AM.

It's important to prepare for a possible active shooter situation by

locating the primary and alternate exits closest to you and walking through your work area to identify:

* Potential hiding places that provide cover (ballistic protection) and concealment (shooter cannot see you).
* Items nearby that could improve cover/concealment.
* Ordinary office items you could use to defend yourself against an attacker/active shooter.

You are strongly encouraged to review the Occupant Emergency Plan (OEP) for the building where you work; please visit the HQ Security in the Workplace <http://intranet.epa.gov/oa/smd/hqsecurity/oep-index.htm> intranet site to access the OEPs for Headquarters buildings. More information can be found on the Active Shooter Response and Preparedness <http://intranet.epa.gov/oa/smd/activeshooterresponsetraining.html> intranet site.

Remember, during an Active Shooter event, you have three options based on where you are when you hear shots fired:

1. RUN: evacuate.
2. HIDE: seek cover and concealment.
3. FIGHT: take aggressive action.

For sure! Afternoon is pretty flexible. Would 2pm work? If not, just let me know what works on your end and it should be good over here too.

Thanks!

Hi Brittany,

Haven't talked in a while – hope things are going well with you! I bet they're incredibly busy, if the constant trickle of news is any indication!

Just wanted to check in on some SCC stuff. We're looking for some next steps on our SCC bill (to be perfectly honest, we're not quite sure what that looks like yet, be it a hearing generally on the topic or the bill specifically). I know House Resources marked up recently, so they're already ahead and I apologize if you've already been through this with them. What I wanted to ask you was whether moving that bill forward creates any complications for you regarding ongoing CPP actions, etc. – just want to ensure we're not unintentionally complicating matters. I've attached our one-pager as I'm guessing you don't spend a bunch of time tracking random Senate bills and committing them to memory!
Thanks!
Valerie

Subject: 2017 Online Annual Ethics Training

Announcing the 2017 annual ethics training!

This year's course "Follow the Money – Gifts and Travel" examines ethics considerations related to…you guessed it: gifts and travel. All EPA employees have a duty to understand our ethics responsibilities with regard to giving and receiving gifts, including the gift of travel.

I encourage all employees to take this training. However, grantees

(e.g., ORISE fellows, SEE enrollees) and contractors are NOT required to take this training.

To get to the training, click on this link: 2017 Annual Ethics Training <http://intranet.epa.gov/ogc/2017ethicstraining/10 .html> that takes you directly to the site. This training CANNOT BE ACCESSED through EPA University or Skillport. Start the course using the link provided in this message and then, at the end, you must type in your EPA email address so that the system can generate your ethics certificate of completion. PLEASE NOTE: ONLY your correct EPA email address will earn you credit, so be sure to proofread. DO NOT USE YOUR PERSONAL EMAIL ADDRESS.

How do I know if my employees have taken the training?
For now, you still have to use the link to the Lotus Notes database <Notes://DCOGCLN1/ETHICS/EthC17.nsf> (Notes://DCOGCLN1/ETHICS/EthC17.nsf <notes://DCOGCLN1/ETHICS/EthC17.nsf>). Remember, this is a Lotus Notes database (sorry) and we know that Lotus Notes is going away. You and your assistant DEOs will need to be sure that you have updated Lotus Notes IDs and passwords to access this tracker, but we don't know whether EZTech or your local help desk will be able to provide assistance. Fingers crossed. At worst, you can ask OGC/Ethics for a list of who has completed the training in your organization. We will still have Lotus Notes access next year.

How do I generate a training certificate for someone?
If someone says s/he took the training but didn't get a certificate, well, typically, we believe that person. I mean, who would really lie about having taken ethics training? Ethics officials can go into the tracking database (Notes://DCOGCLN1/ETHICS/EthC17.nsf <notes://DCOGCLN1/ETHICS/EthC17.nsf>) to create a manual certificate for that person or you can ask OGC/Ethics for assistance.

I can't generate a certificate of completion. What do I do?
When you open the training tracker database, if you don't see a button that says "enter a certificate for another person," then we may have to add you to the access list. Just send a note to ethics@epa.gov <mailto:ethics@epa.gov> so that we can fix that glitch for you.

How can I send feedback and comments?
As you know, our training courses are created entirely by the OGC ethics team, principally through the creative genius of Dan Fort, who recently retired. If you have any comments about the content of this course, or want to provide input about future courses, please contact Margaret Ross (our new ethics training officer) at ross.margaret@epa.gov <mailto:ross.margaret@epa.gov>

Subject: Dessert/Champagne Baby Reception!

Hello all,

We have quite the group of expectant parents on the political team and wanted to get everyone together for a Dessert/Champagne (sparkling cider for the expectant moms!) Reception next week to celebrate all of them! Please join us during the time below in the Green Room. Much like the AO Holiday Reception, we would ask everyone that if you'd like, to contribute a favorite dessert for the reception. You can drop off starting at 4PM that day. I will also be collecting a voluntary $10 contribution to cover refreshments and small gifts for the guests of honor. If you would like to contribute, please give to me by this Friday if possible.

Dessert/Champagne Baby Reception
For: Holly Greaves, Tate Bennett, Marcella Burke, Erik Baptist, Troy Lyons, Christian Palich & Clint Woods
Tuesday, January 23rd
4:30-5:15PM
Green Room
Note: Please add to your calendar. I will not be sending a calendar invite.

We hope you can join us!

Note: This event has been cleared through EPA Ethics officials.

Subject: Save the Date: EPA 2018 National Executive Leadership Development Conference

Hi all:

I am pleased to announce that EPA's 2018 National Executive Leadership Development Conference is scheduled for Monday and Tuesday, January 29 and 30, 2018 at the Omni Shoreham Hotel

<https://www.omnihotels.com/hotels/washington-dc-shoreham> in Washington, D.C. The theme of the conference is EPA Today and Our Vision for the Future. I expect this event to provide an excellent opportunity for us to consider the agency's current state and what we each of us can do to assure that we achieve our important mission.

While the conference agenda and website are being prepared, we encourage you to make your hotel reservations and travel arrangements. We have reserved a limited block of rooms at the government lodging rate of $201 per night. You may make hotel reservations here <https://www.omnihotels.com/hotels/washington-dc-shoreham/meetings/2018-national-executive-leadership-development-conference> or call (800) 843-6664 or (202) 234-0700. Please tell the reservations agent that you are attending EPA's 2018 National Executive Leadership Development Conference to ensure you are booked in our room block with the negotiated rate. In accordance with EPA's conference spending policies, please be sure to enter project code MM168501 into CONCUR.

If you have any questions, please contact Kevin DeBell (debell.kevin@epa.gov <mailto:debell.kevin@epa.gov> , (202) 566-1931) or Malissa Griffin (griffin.malissa@epa.gov <mailto:griffin.malissa@epa.gov> , (202) 564-0148). I look forward to seeing you next month.

Sincerely,
Henry Darwin
Assistant Deputy Administrator and Chief of Operations

EPA-17-0432-C-002049

Hi all,
You are receiving this reminder because you still need to complete the Ethics training, please do so as soon as possible.

Subject: 2017 Online Annual Ethics Training

Announcing the 2017 annual ethics training!

This year's course "Follow the Money – Gifts and Travel" examines ethics considerations related to…you guessed it: gifts and travel. All EPA employees have a duty to understand our ethics responsibilities with regard to giving and receiving gifts, including the gift of travel.

I encourage all employees to take this training. However, grantees (e.g., ORISE fellows, SEE enrollees) and contractors are NOT required to take this training.

To get to the training, click on this link: 2017 Annual Ethics Training <http://intranet.epa.gov/ogc/2017ethicstraining/10 .html> that takes you directly to the site. This training CANNOT BE ACCESSED through EPA University or Skillport. Start the course using the link provided in this message and then, at the end, you must type in your EPA email address so that the system can generate your ethics certificate of completion. PLEASE NOTE: ONLY your correct EPA email address will earn you credit, so be sure to proofread. DO NOT USE YOUR PERSONAL EMAIL ADDRESS.

How do I know if my employees have taken the training?
For now, you still have to use the link to the Lotus Notes database <Notes://DCOGCLN1/ETHICS/EthC17.nsf> (Notes://DCOGCLN1/ETHICS/EthC17.nsf <notes://DCOGCLN1/ETHICS/EthC17.nsf>). Remember, this is a Lotus Notes database (sorry) and we know that Lotus Notes is going away. You and your assistant DEOs will need to be sure that you have updated Lotus Notes IDs and passwords to access this tracker, but we don't know whether EZTech or your local help desk will be able to provide assistance. Fingers crossed. At worst, you can ask OGC/Ethics for a list of who has completed the training in your organization. We will still have Lotus Notes access next year.

How do I generate a training certificate for someone?
If someone says s/he took the training but didn't get a certificate, well, typically, we believe that person. I mean, who would really lie about having taken ethics training? Ethics officials can go into the tracking database (Notes://DCOGCLN1/ETHICS/EthC17.nsf <notes://DCOGCLN1/ETHICS/EthC17.nsf>) to create a manual certificate for that person or you can ask OGC/Ethics for assistance.

I can't generate a certificate of completion. What do I do?
When you open the training tracker database, if you don't see a button that says "enter a certificate for another person," then we may have to add you to the access list. Just send a note to ethics@epa.gov <mailto:ethics@epa.gov> so that we can fix that glitch for you.

How can I send feedback and comments?
As you know, our training courses are created entirely by the OGC ethics team, principally through the creative genius of Dan Fort, who recently retired. If you have any comments about the content of this course, or want to provide input about future courses, please contact Margaret Ross (our new ethics training officer) at ross.margaret@epa.gov <mailto:ross.margaret@epa.gov>

Colleagues,

Since we haven't done one of these in a while and have lots of new staff, I thought it'd be nice to schedule some time to all get together. Please forward along to anyone I missed and hope to see many of you there.

Thanks!
